

I am a 54 yr old Communications Major from Florida State Univ. I have been in the Marines and played football at FSU. But are you guys crazy letting more television and newspapers be owned by fewer and fewer business.

The truth for the public's benefit seems to be popular to sold in secret. Like the Bush Administrations private Energy meetings at white house or Home Land Security's freeing biggest Pharmasutical from small pox culpability.Or Sr. Bush's HalliBurton spinoffs Becktel and Kellog (hey no English) rebuilding Iraq bids without witness' sending to joint arms servic committe was it.Now the airways.

These air waves are the American peoples, don't forget that. Selling them to fewer private enterprises sells the people out.And until we figure out a way to internet vote to decorrupt the lobby system we are in big trouble. If we only get to hear what network gets whipped up over orange alert to promote the politics of big oil is sad. Why isn't Bill Moyers on at 7pm for all to see? Why is profit more important than truth. Shelf life more important than our life in the American grocery store. It is a crime for example in the food industry hydrogenated oils will kill you but the public isn't told.Example Margin will sit in the window sil 20 years and no bug or roach will eat but it's still sold; it's plastic.Same with the drug companies profits more important than your life . Just listen to side affects of any national pharmaceutical spot and you tell me. Where's America's truth in leadership, forget advertising and big business or preventive nutritional health matience. Now the airways again!

Why don't you enforce the laws on the books now. Like audio volume too loud on commercials. Or 25 minutes advertising per hour, conservatively on television. It's disgusting. Television is only as good as the people who make it. But the curve of "if it sells must be right" is a lie if such untruth in advertising continues it's massive boom. Hey face it the diet, cosmetic and food business make billions convincing women to hate their own body image. Average is 3000 a day all sources. And a blitzkrieg of Negative messages to buy buy buy. Like EVP agency is the FCC going the way of the giant put your head in the sand for profit way behind closed doors too. Sure seems like it. How about lets put the FCC hearing on television instead of the WAR. The casualties of the last thirty years ain't getting smaller. WAs it 200,000 eating disorder teenage deaths last year or more. Do you guys look in the mirror or do you suffer beltway glare? And over our public airways because you want to sell more cross ownership to the fewer behind closed doors if they had there way., media giants only". No ! It is hard enough to get folks to vote because the little people both work too much to know; to take concerted effort to learn about this. Entertainment tv yellow journalism is bad enough.

No to changing. In fact inforce what you have and then some. If the baby boomers don't stimey the power elites now, who will. We will lose democracy as we know it.

To use Dwight D. Eisenhower words " In the councils of Government , we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist." from his paper "The Dangers on a Military-Industrial Complex" This abuse is happening in the Defense Policy board now.Mr. Pearlman steps down as chairman but somehow is still on the board and

hey Global Crossing lets make a deal. These ex generals and public servants made it on tax payers backs; now how bout returning the favor without such greed.

Only an alert and knowledgeable citizenry can compel the proper meshing of such huge power to broadcast like mindedness. This is a clear and present danger. So don't pull out of Kyoto again like before 9/11 and have another study of why the ozone layer is gone crap. Show leadership; Do the right thing now, preserve democracy and clean it up.. Stop screwing the American people who trust our leaders to tell the truth and that is diminishing as we speak. Thank you.
